Mister Donut , Pon de Lion

Pon de Lion, it is a character of Mister Donut, Mister Donut is a famous donut store in Japan and Taiwan.

UPDATED! remeshed more detail, no thin tail and hole better for scaling in different size, use prusaslicer and follow below step to create hole, you can make a 1.75mm hole and cut a piece of filament as the tail, thank you [@lonRoux\\_411284](#) for the suggestion.

- 1, right click the model → add negative volume → cylinder
- 2, change the size of the cylinder
- 3, place the cylinder in the GOOD place, and you are good to slice it~

(Sorry, I mixed up with the sitting pose file, when I upload the thing, this should be fixed now)
