updated 12. 4. 2022 | published 16. 12. 2021

Summary

Dokodemo Door in scale 1:12, with built-in hinge, should be open and close probably after print, and just pop the back...

Dokodemo Door in scale 1:12, with built-in hinge, should be open and close probably after print, and just pop the back parts in and make it stand, but sorry, it can't stand when door is open...

, , , support,

Watch this model in live action (this model is the small version in the video)
