Multicolor, single part coaster with the C8 Corvette logo. Color changes are handled by swapping filament colors at specific layers. Original model is 133 mm dia. but can resize to 100 mm dia. if it is too large for your taste.

OBJ and Fusion 360 Archive files are included as well as GCODE for the CR10S printer with BLTouch printing at 200C with 0.2mm layers, 15% infill, M600 commands are in the gcode to automatically initiate the filament swap as long as your printer firmware supports it.

Filament colors by layer groups are as follows:

Silver - layers 1 - 7
Yellow - layers 8 - 11
Black - layers 12 - 14
Red - layers 15 - 17
Silver - layers 18 - onward
