I decided to make a bigger version, I printed with cura, z-hop 0.4mm or more.

1. open two stl in cura
2. merge them together
3. turn the model upside down
4. then ungroup them, don't move the model from now
5. delete one of the stl in cura
6. slice and save gcode
7. click "undo" to bring back the deleted stl
8. delete the sliced model

slice the remaining model

Try any two beautiful filament colour you like~ There is a Tom Nook version, check it out.
