Want a duck in your yard, bathroom, print room, playroom, or kitchen? Say no more! Dragoneye Jo created the design. If you're looking for some small home decor, look no further! You can place this duck/goose anywhere with a ledge, and it will blend in with your surroundings. You can customize the duck/goose with any color theme you'd like!

You can print this duck/goose with a single-color printer, as I understand that not everyone has a multicolor capability.
