Wolverine keychain based on the latest wolverine & Deadpool logo.

Eyes are separate file so you can print them in a different color. I paused the print and changed colors when the mask started printing. The file has the mask raised up a bit to accomplish that.

At 100% it measures 95mm wide x 75mm tall x 6mm thick.

Eyes fit in nice at 100%, I had to glue them in, scaling down would probably cause the fit to be tight or require sanding.
