----EDIT: Since the me creator 2 is a solidoodle clone/upgrade, this might work on that as well. i have no way to confirm this though.----

Made a push fit spool holder for the solidoodle 2, this design uses 608 bearings. print both parts twice for a complete set.

no mounting screws required, just push it on the frame, its a very tight fit. tested with 1,5kg spool. i used 20% infill just to be safe.
