Summary

Case for Riden RK6006 for use without fan, minimal size

[Hobby & Makers](#) > [Electronics](#)

Tags: **rk6006**

Printing Instructions:

- Layer Height: 0.2 mm for standard printing.
- Line Width: 0.4 mm.
- For Best Appearance: Use a layer height of 0.16 mm.
- * Grill.stl: should be printed without top and bottom layers, with 30% honeycomb infill pattern.
- Material: Use any high-temperature filament; do not print using PLA filament.

Place the grid into the cutout in the top and bottom lids, add glue to fix it. Also for assembly you will need 4 pcs of M2.5*8 screws.
