Ender 3 V3 CoreXZ clips for using the Ender 3 V2 Halo Light Led Strip Holder which you can download here>> <https://www.printables.com/model/183884-ender-3-v2-halo-light-led-strip-holder>

Just print two sets of this clips part and continue using your halo led light strip holder for your CoreXZ printer.

You can find the cable management parts here <https://www.printables.com/model/934572-ender-3-v3-corexz-cable-clips-top-side>

No support, no brim, no nothing.. 0.2mm layer height standart print profile..

Use the 2 holes in the connector part for gluing two parts together.

Important wait for the curing of the glue especially if you are using super glue and there shouldn't be any gaps between two parts.
