finger worm

this is the finger worm

settings: resolution:0,28

supports:on

rafts: no

what you need: 3D printed parts , fishing line

assembly: put the fishing line through the circles in middle parts tie it to the circles i the up end the second side you must get the fishing line through the base circles and tie it to the circles in the finger ring

i printed with 8 middle parts but you can do it with many as you want (at least i think)

hope you like it

(btw it scares my dad)
