Summary

Sleeve to prevent touching the buttons or hot end when soldering

[Hobby & Makers](#) > [Tools](#)

Tags: [stand](#) [soldering](#) [sleeve](#) [ts101](#)

Prevents accidentally touching the buttons, screw or hot tip during soldering.

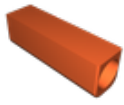

Keeps the soldering iron from rolling away when placing it on the table (for having two free hands when soldering two parts together).

Makes the TS101 fit into standard soldering iron stand.

Dimensions are based on the [TS101 model on GrabCad](#).

Prints without support (side with the circular hole facing down).
