Hygrometer mount for the original Creality S housing.

Mounted on a 16mm diameter side vertical tube.
For mounting we need two 3x12mm screws
and two 3x20mm headless screws.

Mount the holder at the correct height and use.

CONCLUSION

If you enjoyed the project **please like it.**

Post your makes and let me know how it works out for you.

If anyone has any comments about them - I'd be happy to listen and improve the models.

Did my project bring you joy, save you time or solve your problem? Share it with me and make me happy - buy me **ko-fi**.

Updated 29.07.2024

I have added a second version of the hygrometer mounting frame.
