This model has been replaced with <https://www.printables.com/model/965667-wip-k1-btt-eddy-rear-mount-v4>

A basic model, many users may want a side mounted model, I wanted a model on the back for ease of swapping with my carto model which mounts the same way, just because I am working on Simple AF project and want to be able to swap them reasonably quickly.

2x M2x8x3.5 (shorter inserts work too, I choose 8mm as I had heaps of them) heated inserts

2x M3x5.0x4.0 heated inserts

2x M3 bolts that came with the eddy

2x M2x12mm to mount to stock gantry
