Protective carrying case for the Xmax v3 pro with glass/bong/standard mouthpieces.

Please note: The caps do **not** fit on the **original design from 4lan9**, i.e. you have to print the bottom part as well.

There are different caps for different mouthpieces/heads:

- Glass mouthpiece
 - BodyTopFlat
 - CutTopCylinder
- Bong adapter
 - BodyTopBongFlat
 - CutTopBongCylinder
- Standard mouthpiece
 - BodyTopShortFlat

All parts print without supports (the open sides of the parts facing upwards).
