Summary

This is a base for a 2 parted shoppingcart coin where you can add a nfc chip in between.

[Household](#) > [Other House Equipment](#)

Tags: [shoppingcartcoin](#) [nfc](#) [nfctag](#) [bussines](#)

I created this chip because I think it's pretty neat to be able to create a multi-color shopping-cart coin where you can integrate an NFC, for example, promoting your company or making a virtual business card out of it.

If you want to add a text or logo i recommend printing it with at 0.2 nozzle

This 8mm diameter NTAG213 chip fits perfectly in this model.
