## Summary

Hooks for bags to mount on a handle

[Household](#) > [Outdoor & Garden](#)

Tags: [stroller](#) [strollerhook](#)

Another model of the hook for snap 4, that you can find on printables is great, buuuuut because it has no stopper or regulator bags are hanging too low (sometimes get dirty from wheels), so I've designed this. Requires 1 DIN912 M6x30 screw and one M6 nut for each hook. Nut will have very tight fit, so first press it with screw and something between mount's jaws.
