Introducing our 3D Printable AirTag Holder for FPV Drones – the perfect solution for keeping track of your drone's location with ease and reliability. This custom-designed holder securely houses an Apple AirTag, making it an essential accessory for any FPV pilot who values their gear and wants peace of mind during flights.

Crafted specifically for FPV drones, our AirTag holder is designed to seamlessly integrate with your drone's frame. Its compact and lightweight design ensures minimal impact on your drone's weight and flight characteristics, allowing you to maintain peak performance while adding a valuable tracking feature.

The holder's secure fit keeps the AirTag firmly in place, even during high-speed maneuvers and challenging conditions. This ensures that your tracking device stays put, providing accurate location data whenever you need it. Whether you're flying in dense forests, urban landscapes, or open

fields, our AirTag holder helps you quickly locate your drone if it goes down or gets lost.

Made with durability in mind, this 3D printable AirTag holder is easy to print and install. Its versatile design accommodates a wide range of drone frames, making it a versatile addition to any FPV setup. The holder's simple and efficient design allows for quick installation, so you can spend less time setting up and more time flying.

Upgrade your FPV drone with our 3D Printable AirTag Holder and enjoy the added security of real-time tracking. Whether you're exploring new areas, testing new tricks, or simply want the assurance of always knowing where your drone is, this AirTag holder is the perfect solution. Fly with confidence and never lose track of your drone again.
