Summary

this version of the grenade is better, more accurate, and less files

[Toys & Games](#) > [Outdoor Toys](#)

same as v1 but a lot better yet again i have not printed but will keep you guys updated as it goes on. all the peices that are the same color need to go together. to build the grenade is fully 3d printed and for hinges is 1.75 filament and the 3d printed springs print 4 doors
