Summary

COFFEE CAPSULE ORGANIZER

[Household](#) > [Kitchen](#)

Tags: [organizer](#) [coffee](#)

Organizer for coffee capsules. If you have nowhere to put your coffee capsules and want something unique and designer, this organizer is for you. You can put your capsules in this organizer. The organizer is made in the form of a coffee cup, from which steam comes out. This organizer is also equipped with back covers to keep the capsules from hanging down.

It looks very nice in the kitchen. You can attach this organizer to the wall. The hole at the bottom will allow you to do this.

For those with capsules of different sizes, pads are needed. In addition, the internal size is also necessary in order to accommodate larger capsules.

The main thing is that the amount of steam that comes with the kit does not increase. I made it so that you can customize it to your liking.
