### Summary

I designed this part for our thunder laser honey comb bed to elevate and stabilize cutting material.

I designed this part for our thunder laser honey comb bed to elevate and stabilize cutting material. This was to reduce grid burning on the bottom side of the material. I hope it works out for your laser bed. they make great origin markers as well.

official name : LAZERHELLRAIZERZ

9.5mm diameter bottom, 16mm diameter middle, and 8mm diameter top. the top has a 4mm diameter hole, which is meant to insert a finishing nail.
