Design Features:

Elegant and Modern Design: The fluid lines and organic shapes of "Eclipso" make it a standout piece on any table or surface.

Optimized for 3D Printing: Carefully designed to ensure a hassle-free print on most 3D printers. Recommended to use PLA or PETG for the best finish.

Versatile and Adaptable: Perfect for a wide variety of applications, from a dining table centerpiece to a decorative piece in the living room.

Customizable: Choose the color and finish that best suit your style and décor, ensuring that "Eclipso" is a truly unique piece.
