[oneinch](#) [1inch](#) [dispensers](#)

Sticker dispenser for 1" diameter stickers, specifically, the ULINE stickers which come on a roll of 1000ct.

Example is printed in PETG on a Bambulab X1C using about 130-150g of filament.

This was designed from the ground up to use the same principal as the original design with various differences. The lid screws into place with a left-hand thread. The dimensions have been modified to fit a specific type of sticker roll. The aesthetic has been changed a bit to be more rounded and a bit smaller.
