### Summary

Gridfinity holder for the Harbor Freight 6-in-1 Ratcheting Mult-bit Stubby Screwdriver

Tags: [screwdriver](#) [harborfreight](#) [stubby](#) [gridfinity](#)

I use my [Harbor Freight Stubby screwdriver](#) a lot, and I decided it needed a home. So, I designed a holder for it that works with Gridfinity.

I used [Le0Michine's wonderful plugin](#) to generate the solid bin. There's about 0.5 mm of wiggle room in the dimensions to fit Stubby comfortably. It fits in a 1x1, and is 9 units tall.

Settings I used:

Layer Height: 0.2

Wall parameters: 2

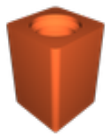

Infill: Gyroid

Infill density: 8%

Material: PLA

Fan Speed: 0% until layer 10, 100% after that (for good corner adhesion)
