Summary

Anti Aircraft style Spider Sights with Picatinny mounts.

[Costumes & Accessories](#) > [Props](#)

Tags: [spider](#) [picatinny](#) [sights](#) [picatinnymount](#) [antiaircraft](#)

Front and rear Anti Aircraft style Spider sights with Picatinny mounts for use on any standard rail section.

The Picatinny attachments were designed on the low end of tolerance, so they might require a small amount of filing and fitting.

They were test fired on the 9mm AR pistol in the picture, and remained in place throughout. Accuracy was acceptable for 7-10 yards.
