### Summary

A piggy bank.

[Household](#) > [Other House Equipment](#)

Tags: [pig](#) [piggy](#) [piggybank](#)

### This piggy bank has been optimized for FDM.

It has a nice funnel on the inside that makes the coin fall towards the hole, so the money is easy to get out and doesn't get stuck in a dark corner somewhere.

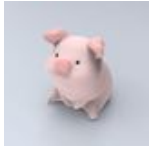

The inside of the piggy has some nice 45 degrees slopes going up to the top, so that no supports would be needed whatsoever.

### My settings :

- 3 walls
- 5per cent infill
- NO SUPPORTS
- 0.2 layer height for the body
- 0.1 layer height for eyes and cap

Give this piggy some love and post your makes !
