Summary

it is perfect for a gift. Can you also use it for a picture, just cut it out in a heart shape and use a double tape.

[3D Printers](#) > [Accessories](#)

Tags: [sign](#) [stand](#) [love](#) [sasho](#)

You can use any software to insert text. I am using Creality Print. Please make sure not to make the text more than 2mm deep.

use super glue to attach the two parts if you don't if you like. **I didn't use glue is just stood there.**
