## Summary

Functional/decorative print-in-place shelves

[Household](#) > [Home Decor](#)

Tags: [shelf](#) [printinplace](#) [shelves](#)

Triple print-in place shelves. Originally drawn at 250x250x150mm (STEP file), you'll need to scale down on some printers. The supplied STL is scaled to 230x230x150 to fit on X1C, P1S...

Easy print without supports. I suggest 'outer wall first' for better surface finish. I printed with 3 walls, 15% Cubic infill.
