Summary

For me, it's a continuation of learning 3D design. In practice, it also turned out to be a gift for my mother.

"Learning makes perfect". Following this motto, I sit down from time to time and try to play with a 3D design program. The effects are probably poor compared to professionals, but as they say in my area - "Krakow wasn't built in a day". So I created a vase, which will also be a gift for my mother.

If you like the model, you can always buy me a coffee ;)
