Summary

A mock of a Bambu Lab x1 display, turned into a little tablet

[Gadgets](#) > [Portable Devices](#)

I've wanted a Bambu Lab x1 display, but i ain't paying 160 EUR just for a not functional display, so I made a mock of it and added some accesories like buttons and a camera. I actually lost the camera so i used a 3d pen. It turned out pretty well. Hope you like it!
