Summary

A simple and elegant tamping mat for espresso making. Avoid damaging your portafilter and your table!

Tags: [espresso](#) [coffee](#) [mat](#) [tamping](#)

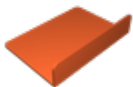

Dimensions are 205 x 145 x 45 mm, 4 mm thickness.

I printed this in cr-tpu with a 0,2mm layer, 15% infill setting. It took about 8h on a Prusa MK4 with the original 0,4mm nozzle.

Don't mind the visible artefact on the photo, I paused the printing and messed with the filament a little.
