Summary

Creation of a corner for a “Dallas” type metal garden shed to replace the broken ones, with option to add gutter

[Household](#) > [Outdoor & Garden](#)

Tags: [garden](#) [gutter](#) [jardin](#) [corner](#) [dallas](#) [angles](#)
[gouttieres](#)

The original versions of the corners of the “Dallas” type garden shed crumble over time and the sun.

I recreated the angles to replace them, with an extension allowing you to add a bamboo gutter (for example)

Print Settings

Printer : Bambou lab A1

Filament : PETG

Support : No (for only corner), yes, on tray only (for gutter extension)

Presets : 0.20mm Strength
