Modified an A2 birdcage model I had into an AKM style muzzle so that I could mount an ASG B&T Rotex replica onto an AK-105 without having to use a birdcage style which looks a bit too much like a Draco. Just an AKM muzzle with a NATO QD interface. I don't have a working printer so it is **pending a fitment test!**

14mmCCW threaded

STL and STEP available!
