updated 12. 4. 2022 | published 8. 11. 2019

Summary

This is a silly little bracket for hanging a feeler gauge on. Uses a single M5 bolt and T-Nut.

This is a silly little bracket for hanging a feeler gauge on. Uses a single M5 bolt and T-Nut.

Print instructions Category: 3D Printer Accessories Print Settings

Rafts: No

Supports: Yes

Resolution: 0.2mm

Infill: 40%

Notes:

I printed it "guide notch" down with supports, since that surface isn't visible. I suppose it could be printed standing up as well, with support under the hanger.
