updated 27. 7. 2024 | published 27. 7. 2024

Summary

a little holder for a standard can of your choice. Push into the sand and safely place your drink

Tags: [beer](#) [holder](#) [mount](#) [easy](#) [stick](#) [beach](#) [sand](#)
[nosupport](#)

Nothing much to say. Should print fine without any supports. Takes less than 1h on my x1c

I guess its pretty clear how it works

Model files

beach-beer-buddy.3mf

|| print flat on side - no supports needed

beach-beer-buddy.stl

|| print flat on side - no supports needed
