updated 2. 8. 2024 | published 2. 8. 2024

Summary

Plow through sand or light soil to set your anchor. No supports needed

[Seasonal designs](#) > [Summer](#)

Tags: [hook](#) [beach](#) [sand](#) [auger](#)

4 pc. Sand hook shaped like an auger to drive the hook deep into the ground for stability.

0.2mm clearance to slot the pieces together.

To hold the slotted parts in place use 1.75mm filament or any pin fitting (wire, ...)

Design was made to avoid supports: **no supports needed**

EDIT: Added a version of Side 2 with chafered rear end of thread.
