Some laser sight mounts I designed for my daughters Nerf Mega guns. The mounting rail seems to vary from gun to gun, so YMMV.

Designed for these 30mm-diameter laser pointer/flashlights from Amazon: <http://a.co/34fTfFw> (Link is no longer valid. Title of item was "FZR Legend Rechargeable Interactive Laser Pointer Toys with 3 Modes (Red Laser, UV and Flashlight), ON/OFF Switch, USB Charging Cable, Great for Pet C" if looking for it elsewhere)
