You'd be better off spending 30 minutes printing **Fidget butterfly knife keychain** to evaluate whether your fingers are too numb to make this fidget pistol.

Initial release STL - July 27, 2024.

Recheck the latest STL before starting printing.

Branches from **Standard props pistol** to fidget keychains.

Basically downsized by 50% in slicer with some stl were updated specifically to do the job.

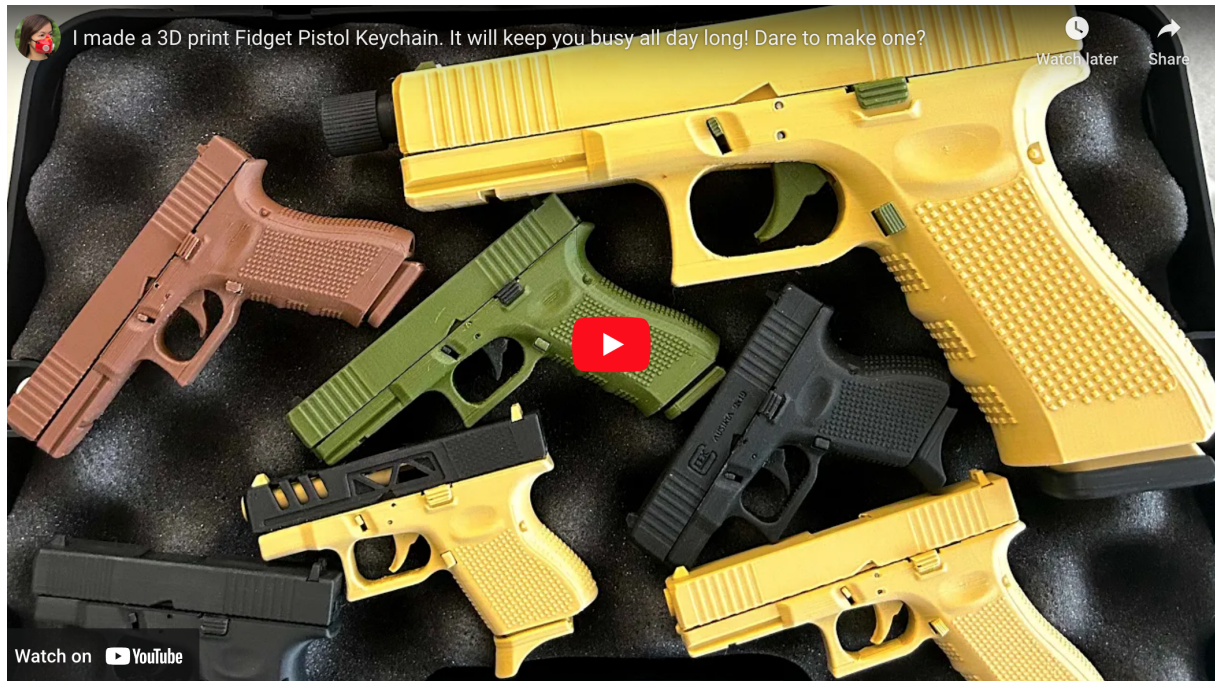

Keep your hands busy with this adorable pistol all day long.

**Layer height no more than 0.12mm, 2walls. (0.1mm for threaded barrel and barrel protect)**
