Tags: [gopro](#) [drone](#) [fpv](#) [fpvcameramount](#) [apex5](#)

I designed this mount to fit my Gopro Hero 9 for Apex 5 clone frame. Bolt holes 24mm x 40mm, 3mm diameter.

Printed in 45 degree angle with supports for better strength.

I used PETG filament, 0,2mm layer, 100% infill
