Hold 3 CA glues, accelerator, and tips on your pegboard with a couple of Sy's peglock connectors.

I use the peglock system in my woodshop and wanted to have a place to keep my CA glues handy, so found this container and tweaked it to fit the system.

👤 PLA 📏 0.40 mm ❤️ 0.20 mm ⌚ 10.32 hrs ⚖️ 277 g 🎵 Prusa MK4
