## Summary

WaveShelf

[Gadgets](#) > [Computers](#)

Tags: [stand](#) [home](#) [iphone](#)

Hello everyone! The WaveShelf, 3D printed with up to 7% infill for a lightweight yet sturdy build, uses durable PLA and PETG materials. Its unique wave-shaped design neatly organizes your books while providing a convenient stand for your phone. Perfect for any modern space. Thank you for your download and your like!
