This is a vertical tiger paw business card holder for all the schools that have tigers or other big cats as their mascots and businesses that support them. I don't remember the original model I tinkered with in tinker cad. I added two elevated paws on each side and a longer base because it kept falling over. If you could print in two colors it would look better. Our school colors are black and gold so I would do a black body with gold paws or visa versa. Let me know what you think
