### Summary

Made this specific design for water. Everytime the coffee maker starts or is turned off, I use this to prevent leaks :)

[Household](#) > [Office](#)

Tags: [coffee](#) [waterbottle](#) [delonghi](#)

Printed with Fiberlogy impact pla

Layer 0.2

Cut part at the top and add connectors ( orca slicer ) really easy prevent from using supports :)

You can also add svg in slicer as I did.
