Summary

Vat lids for Phrozen Sonic Mighty 4K

[3D Printers](#) > [Accessories](#)

Tags: [sonic](#) [phrozen](#) [sonicmighty4k](#)

Bottom and top vat protectors for the Phrozen Sonic Mighty 4k. The lids comes in various configurations, with and without holes. The large holes allows you to cover up the vat without removing the nuts.

All models also comes with a split design, for printing on smaller printers. You should glue the dovetails together for a strong bond.

Update: Note that the large hole lid cover has a tendency to get stuck when lifting off the printer cover. They left very little gap there ... I've added one more version of these, which cuts off the end (the handle edge) from the STL.
