Hi everyone !

Jigglypufflis proud to present to you a magnificent Pikachu planter.

It consists of 5 plates:

One for the planter

One for the cheeks

One for the eyes

One for the mouth

One for the nose

Normally everything fits and no need for glue. I just had to force it a little for the mouth because of the tolerances.

Don't hesitate to give your feedback!

And if you like the model, a little boost. ;)
