Summary

Kill team themed box to store tokens and objective markers.

Tags: [tokens](#) [killteam](#) [tokenstorage](#)

The large circle in the middle fits 40mm objective markers.

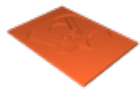

Note: I do not own the official GW tokens so I haven't tested the box with them. If the box is incompatible with the official tokens in any way **PLEASE** let me know so I can fix it. I hope to make my own set of tokens to go along with it but idk when I'll get about to doing that, I'll update this page if/when I do end up making them.

Thanks for downloading and be sure to post your makes!
