### Summary

Use original injection molded top bar to mount ERCF

[3D Printers](#) > [Other Printer Parts & Upgrades](#)

Tags: [ercf](#) [ercfv2](#)

Quickly devised model to mount ERCF on top of the injection molded plastic top part on SV06. Fits with 8 filaments on SV06 so would also work with lesser gated version, or with more gates with SV06plus. Can be left sitting on the part, or glued or fixed with zip tie. Has not yet dropped in my use.
