## Summary

Modular building system for tabletop wargames (contains walls).

[Tabletop Miniatures](#) > [Props & Terrains](#)

Tags: [wall](#) [modular](#) [tabletop](#) [building](#) [tabletopgaming](#)  
[tabletopterrain](#) [tabletopwargaming](#)

This is a collection of various wall pieces for my system of modular terrain. Included are basic (flat) walls, windows and doors, as well as brick variants.

Note: Each piece has a variant labeled “Thin”, these are used to fit between the flat faces of girders and will likely require glue.
