[3D Printers](#) > [3D Printers - Upgrades](#)

This is a remix from <http://www.thingiverse.com/thing:1897363> because I wanted to use the arms to hold a Logitech HD Webcam C310 on the Flashforge Dreamer.

Use M3x20 or M3x15 screws to replace the two screws in the top of the Dreamer and screw it on to use with the arms from the remixed thing above.

Print instructions Category: 3D Printer Accessories Print Settings

Printer: Monoprice Maker Ultimate

Rafts: No

Supports: No

Resolution: .2mm

Infill: 10

How I Designed This

using SketchUp, imported the tripod_frame_mount.stl from the remix, deleted the holes and added my own.

Model files

tripod_frame_mount_flashforge_dreamer.skp

tripod_frame_mount_flashforge_dreamer.stl
