Summary

Vertical Stand

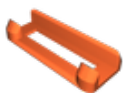

[Gadgets](#) > [Computers](#)

Tags: [stand](#) [ubiquiti](#) [unifi](#)

My Unifi Cloud Gateway Max sits on my desk. I noticed the aluminum bottom for heat dissipation gets rather hot. To help the heat dissipate and save space on my desk, created this small little vertical stand.

One side of the stand I removed the side for most of it so that the bottom airflow holes on the UCG would not be covered.
