HARDWARE

Includes affiliated links to help support my projects

- Filament - **Silk Silver PLA** (this is what I used in many of my photos)
- M3 nuts and screws: M3x6 - M3x10- **I prefer this kit**

INSTRUCTIONS

- Push M3 nuts into slots on handles/knobs
- After sliding the faceplate into position on the GEN2 Decor Drawer use a M3 screw starting it from inside the front of the drawer, passing it through the faceplate and thread it into the M3 nut on the handle, securing it in place.

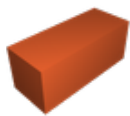

Hey! have you download the GEN2 catalog yet? It's pretty neat!

Download: **GEN2 Interactive Catalog PDF**

Wait What is the GEN2 System? Watch this short video and prepare for storage awesomeness!
